

Supplies:

- Cardstock or patterned paper (Tip: We offer you well-matched paper for cardmaking in our product line: f.i. 6011-0001, 6011-0002, 6011-0003 or 6011-0004)
- Cutting machine 6200-0019
- Double-sided adhesive tape (f.i. 1000-0100)

Work instruction for a basic-card:

For this style adhere one or more pieces of cardstock or patterned paper to basic - using the smallest piece at top - to create a fantastic edge.

The different papers can be decreased by 0,5 cm or 1 cm - also a combination of both is possible. The basic-card ist he largest piece - all other pieces of paper will be cutted out smaller.

1)  **Basic-card:**
- 13,5 x 13,5 cm

All other papers:
- 13 x 13 cm
- 12 x 12 cm
- 11 x 11 cm

2)  **Add double-sided adhesive tape on the reverse side along the edges and diagonally. Pull off protective films...**

3)  **...and adhere your piece of paper concentrically to the card.**

4)  **Put on the next piece...**

5)  **...until all pieces are added.**

Now the card can be decorated as wanted.

We offer you f.i. 3D cutting sheets, decorative stones and pearls, gems & jewels or ribbons.

Tip:  **Use cardstock for embossed elements to create beautiful effects. The element will be added to cardstock before cutted out with some gap. .**

Tip:  **3D-Motifs also look great when layered.**

We wish you success!
